Dear Potential GOMACTech Exhibitor:

The Government Microcircuit Applications & Critical Technology Conference (GOMACTech) has become the premier forum for the dissemination of information of Government funded microcircuit research and development programs and provides the opportunity for the presenting of leading-edge research and development, as it applies to today's challenges.

At this time, GOMACTech is soliciting Exhibitors for GOMACTech-05, to be held at the Riviera Hotel, Las Vegas, NV, on April 4-7, 2005.

Systems that can gather and analyze data as well as make decisions autonomously in harsh unfriendly environments require a marriage of high performance information processing technologies with highly capable sensor technologies. Such "Intelligent Technologies" are a key element for the successful development of future civilian and military systems. GOMACTech-05 addresses the technologies and infrastructure necessary to achieve this dramatic advance in functional capabilities and highlights the current state of the art in intelligent systems.

Enclosed is an Exhibitor Package containing information on how to reserve exhibit space at GOMACTech-05. The Package consists of the following: (1) an Application for Exhibit Space, (2) an Exhibit Space Floor Plan, and (3) Exhibit Rules and Guidelines. All accepted applicants will be listed in the GOMACTech Advance Program as an GOMACTech-05 Exhibitor.
