Instructions

This form is designed to streamline the session organization and paper selection process for the GOMACTech conference. Each Technical Program Committee (TPC) member who is interested in serving as a session champion should complete this form and send an electronic copy to the Technical Program Chair *as early in the process as possible*.

Paper sessions typically are allotted four papers and 90 minutes, with each paper running 20 minutes and an additional 10 minutes of slack time for extra questions, unanticipated delays with computer hardware, etc. Linked double sessions are possible under some circumstances, as are special double-length invited papers replacing two regular papers.
