Call for Exhibitors

GOMACTech-08

Microsensor Technologies Enabling Information on Demand

March 17-20, 2008

The Riviera Hotel, Las Vegas, NV

http://www.gomactech.net

The proliferation of cognitive emerging nanometer scale integrated electronics embedded in government and civilian systems will create a world in which information access is ubiquitous and available on demand at anytime and from anyplace. GOMACTech-08 highlights emerging highly innovative technologies that provide a bridge from the world today to the world tomorrow where information is available on demand everywhere.

The Government Microcircuit Applications & Critical Technology Conference (GOMACTech) has become the premier forum for the dissemination of information of Government-funded microcircuit research-and-development programs and provides the opportunity for presenting leading-edge research and development as it applies

As in the past, GOMACTech-08 will feature Government Applications and Vision Sessions, and selected Research and Development Program Reviews. These sessions offer the attendee insight into Government views of critical technical challenges, and provide an opportunity for key Government organizations to announce major technology and system initiatives.

Exhibit space will be rented at \$2100 for each 8 ft. deep by 10 ft. wide booth

Every effort is being made to assure attendees' participation in the Exhibition. An afternoon break on Tuesday and morning and afternoon breaks on Wednesday will be held in an area inside the Exhibit Hall. Technical sessions will be held on Tuesday through Thursday from 8:30 am to 12:00 pm and from 2:00 pm to 5:00 pm.

EXHIBIT HOURS

 Tuesday, March 18, 2008
 12 noon - 6 pm

 Wednesday, March 19, 2008
 9 am - 4 pm
