

Tony G. Ivanov is Branch Chief RF Devices and Circuits in the Army Research Directorate, DEVCOM Army Research Laboratory. He holds PhD degree in Electrical Engineering. His professional interests are in the area of new materials and novel devices/technologies for RF and microwave applications. Dr. Ivanov has worked for Bell Laboratories (AT&T, Lucent Technologies, Agere Systems), Orlando, FL and for RF Micro Devices (Qorvo), Greensboro, NC on new RF/microwave semiconductor technologies. Currently he is leading the work on Diamond RF Semiconductor Technology at ARL.
