Ezra Hall is the Senior Director of the Aerospace, Defense and Critical Infrastructure End Market at GlobalFoundries, one of the world's leading semiconductor manufacturers and the only one with a truly global footprint. In this role, he devises novel and strategic solutions to technical, legal, security, and business challenges in support of U.S. government, national security, and critical infrastructure sector needs. Previously, Ezra worked at IBM Microelectronics where he helped stand up and administer the program responsible for delivering trusted and secure technologies to the U.S. defense and intelligence communities. With thirty years of experience across technical and business roles, Ezra is a recognized leader in microelectronics supply chain security. Recognized as a Master Inventor by IBM and GlobalFoundries, he holds 21 U.S. patents, has published award winning papers, and co-founded the National Defense Industry Association Electronics Division.
