

Jeremy Muldavin is Director of Development for Aerospace & Defense at Cadence Design Systems. He earned a BSE in Engineering Physics and a PhD in Electrical Engineering Electromagnetics from the University of Michigan. His career includes 19 years at MIT Lincoln Laboratory, service in the Office of the Secretary of Defense as Director of Microelectronics, participation on the National Security Council Sub-PCC for semiconductors, and four years at GlobalFoundries as a Distinguished Member of the Technical Staff. He has worked across government and industry on microelectronics, semiconductor supply chain assurance, and defense-related technology initiatives.
