

Steve is the Director of Microelectronics Design Enablement at NSTXL. Previously Steve served as Head of Emerging Technologies for National Security at the CHIPS Program Office with the US Department of Commerce and led CHIPS funded projects in optoelectronics. Prior to CHIPS Steve spent 25 years in the semiconductor industry with IBM Microelectronics and GLOBALFOUNDRIES. Steve's roles included embedded memory characterization, ASIC IP development, aerospace & defense program management, and silicon photonics product management. Steve has a bachelor's degree in electrical engineering from Michigan Technological University and an MBA from the Kelley School of Business.
