

Dr. Adam R. Waite is a Senior Research Scientist at the Battelle Memorial Institute. He is currently the Imaging and Extraction lead for hardware verification and validation in the Air Force Research Lab's Trusted Electronics Branch. Dr. Waite has over 17 years of research experience in various materials science disciplines including plasma deposition and in situ diagnostics for thin film growth, nanoscale thermal transport, nucleation and growth kinetics of 2D materials, verification and validation of IC's and PCB's as well as microelectronic anti-tamper solutions. He holds a B.S. in Chemical Engineering from Tri-State University, a M.S. in Materials Engineering from the University of Dayton, and a Ph.D. in Materials Science and Engineering from the University of Dayton.
