

# EDAPTIVE COMPUTING, INC.

SOLVING COMPLEX DoD RELEVANT PROBLEMS

## INTEGRATED & APPLIED R&D

*for ASSURED and SECURED MICROELECTRONICS*

**WORKFORCE DEVELOPMENT** | We provide a comprehensive, holistic framework to train students and professionals in all aspects of assured and secured microelectronics, including advanced verification methodologies and tools.

**TECHNOLOGY TRANSITIONS** | We help transition innovative university research and emerging industry technologies into advanced, robust capabilities.

**INTEGRATED SOLUTIONS** | We equip design verification engineers to detect and correct vulnerabilities by combining diverse technologies and skill sets to produce cohesive solutions.

***Through Integration,  
Application and Workforce  
Training we develop  
essential tools and skills  
for a rapidly changing  
Defense microelectronics  
community***
